The game was originally named 'Pixelmon' by the creator of Minecraft, Markus Persson (also known as Notch). It was inspired by crafting games like Little Big Planet and the popular multiplayer game World of Warcraft. Minecraft, like World of Warcraft, is a game that is played in a virtual world. It does not have a storyline or character progressions like most RPGs do. Instead, Minecraft offers players the possibility to build almost anything they want. You can create the same things that you see in Minecraft with your own imagination and creativity."

Players complete a challenge and win prizes such as weapons, armor, unique items, etc. Creative Games Servers: Players can build anything they want with real-world objects inside the game."

How to Connect to a Minecraft Server – The way in which you connect to a Minecraft server depends on what kind of server you are using. If you are using a Bukkit or Tekkit server, then the connection will be handled automatically and everything connected through the same IP address. You can connect directly by typing the IP address into your internet browser or the host name of the server. If you are using an individual private server, you will need to know an IP address of where your Minecraft Server is located. The easiest way that anyone can get this information is by going to their router's configuration settings and finding out the IP address given from them. This IP address is different for each device and will be different every time that a person uses it."

Minecraft mods can be downloaded from the internet, but the most common mods are available on many websites that allow you to download. There are a few Minecraft players who download mods for free, but most of these people are looking to get a scam or something in order to cheat their way to owning Minecraft. It is wise not to download any mods that you come across on forums, because you could end up with a virus or other malware on your computer. The best way to find out whether or not a mod is safe would be to check the creator's website. I have put together a list of some of the most popular sites that host mods for Minecraft. Gameplay",
